**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 21 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by US 6,223,821 (US'821) or US 5,517,854 (US'854).

US 6,223,821 discloses a method that includes, with respect to claim 21, a method for use in a well, comprising directly measuring a pressure in a setting chamber (112, 130, 140, 142) of a downhole tool 12 with a pressure gauge (14, 20). With respect to the depending claim, the reference teaches the limitations as claimed.

US 5,517,854 discloses a method that includes, with respect to claim 21, a method for use in a well, comprising directly measuring a pressure in a setting chamber 370, 376 of a downhole tool 312, 302 with a pressure gauge 330. With respect to the depending claim, the reference teaches the limitations as claimed.

***Allowable Subject Matter***

3. Claims 1-3, 7, 12-20, and 23-26 are allowed.

***Response to Arguments***

Applicant's arguments filed 9/6/06 have been fully considered but they are not persuasive. Applicant failed to discuss the references applied against all of the claims, explaining how the claims avoid the references or distinguish from them. Particularly, applicant failed to discuss claims 21 and 22 with respect to the applied references. It appears as though the applicant thought claim 21 was a dependent claim.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
